OS-F101, Version V3.1-02, 01 December 2011
New Features
FLEXlm software licence manager for licence management included. OS-F101 no longer requires a password to be entered by the user. In addition, OS-F101 has no expiry date anymore.
Bug Fixes
Main sheet.
' Removed commands that set combo-box values. The program will now insert old values, i.e. remember previous values.
