

NETWORK LICENSE HOW TO BORROW A NETWORK LICENSE

Users with a network license may want to use a local license while they are not connected to the license server. The following page introduces how to use borrowing feature of License Manager Tool.

1 INSTALL AND OPEN LICENSE MANAGER

Ÿ	

FLEXIm License Manager configuration tool

Install the latest license manager at client machine, and launch license manager on it.

2 GO TO BORROWING TAB

LMTOOLS by Flexera -		\times
File Edit Mode Help		
Service/License File System Settings Utilities Start/Stop/Reread Server Status Server Diags Config Services	Borrowing	
To borrow licenses (with applications and licenses that support borrowing): (1) Enter the date (and optionally time) you want the licenses to be returned. (2) Use all applications you want to borrow while you're on the network. (3) Disconnect. Borrow expires on the date and time specified, or end-of-day, if no time is specified.		
Set Borrow Expiration Vendor Name: All Return Date: dd-mmm-yyyy Return Time: H	hh:mm	
List Currently Borrowed Features Don't Borrow Anymore Today		
Return Borrowed Licenses Early Display Name: Feature Name: Optional)		
	^	
	~	
		_
1		

The information necessary in the borrowing tab is listed below:

- **Return Date:** the format is dd-mmm-yyyy. For example: 01-Apr-2020.
- Return Time (optional): the format is hh:mm. For example: 16:00. The license will expire at 4PM. If no time is specified, the license will expire at midnight at the end of that date.
- Click Set Borrow Expiration.

3 LAUNCH SOFTWARE APPLICATION

Launch all the software applications that you want to borrow the licenses for them.

For example: Launch GeniE.

Then close it.

Page 2 of 2

4 LIST CURRENTLY BORROWED FEATURES

Click **List Currently Borrowed Features** to show all the license features that have been borrowed. The return time should be same (one min earlier) as setting in previous step.

To borrow lic (1) Enter (2) Use a (3) Disco	censes (with applicati the date (and optiona II applications you wa nnect. res on the date and ti	ons and licenses the ally time) you want i ant to borrow while the specified or en	hat support borrow the licenses to be you're on the net ad-of-day, if no tim	ving): returned. work. e is specified			
Set	Borrow Expiration	Vendor Nar	ne: All				
		Return Date	e: 01-Apr-2020	dd-mmm-yyy	y Retur	n Time: 16:00	hh:mm
List Cu	urrently Borrowed Fea	Heturn Date	e: 01-Apr-2020 Don't Borrow	dd-mmm-yyy Anymore Toda	y Return	n Time: 16:00	hh:mm
List Cu Return	urrently Borrowed Fea Borrowed Licenses B	tures Display	e: 01-Apr-2020 Don't Borrow Name: nal)	dd-mmm-yyy Anymore Toda	y Return y eature Name	n Time: 16:00	hh:mm

Now, the borrowed licenses are ready to use.

If click 'Don't Borrow Anymore Today', programs started after this will not borrow the license, but instead check-out and return the license the normal way.

5 RETURN BORROWED LICENSES EARLY

If you want to return your borrowed licenses before the return date, you can input the Feature Name, click **Return Borrowed Licenses Early**.
